Subject Index to Volume 38[1]

Acetylcholine receptor antibodies, their role in myasthenia gravis, **10:** 2381
Adaptive mechanisms, loss in aging, **6:** 1968
Adrenergic denervation supersensitivity, related to aging, **5:** 1915
Age
  advanced, and alterations in cardiovascular system, **2:** 163
  and structural organization of mouse chromatin, **6:** 1973
  -associated diseases, studied in vitro, **5:** 1862
  effects on pulmonary structure and function, **2:** 173
  -related alterations in adrenergic denervation sensitivity, **5:** 1915
  -related changes in function of transfer ribonucleic acid of rat livers, **6:** 1984
  -related changes in mammalian structure and function, **6:** 1956
Aging
  and biotransformation of drugs, **5:** 1900
  and cell replication, **5:** 1857
  and changes in cardiac drug responsiveness, **5:** 1927
  and hormone receptor changes, **5:** 1910
  and immunologic function, influence of controlled dietary restriction, **6:** 2007
  and longevity modulated by diet, **6:** 1994
  and loss of adaptive mechanisms, **6:** 1968
  and monoamine receptors in brain, **5:** 1922
  and neuroendocrine mechanisms, **2:** 178
  and protein synthesis, **6:** 1979
  diet and central nervous system, **6:** 2017
  diet and lipid metabolism, **6:** 2001
  effects on kidney, **2:** 168
  genetic and evolutionary aspects, **6:** 1962
  its cell biology, **5:** 1847
Airways
  diffusion, series ventilation, and stratified inhomogeneity, **1:** 17
  neuromuscular structure and function, **2:** 202
Alveolar epithelial Type II cells, utilization for study of pulmonary surfactant, **12:** 2637
Alveoli, postnatal formation of, **2:** 215
Amino acid synergism at synapses, **7:** 2080
Angiotensin, physiological effects, **9:** 2253
Anticancer drugs, problems of toxicity, **1:** 113
Antigenic differences among neurons using antiserums to clonal neural retina hybrid cells, **10:** 2368
Antineoplastic agents, development by pharmaceutical companies, **1:** 108
Aprotinin, rationale for its therapeutic action, **13:** 2760
Audiogenic seizure
  in mice, **10:** 2399
  susceptible rats, **10:** 2411
Autoantibodies to the insulin receptor, **12:** 2607

Biological activities of antibodies injected into the brain, **10:** 2391
Biosynthesis of phosphoryl and glycosyl phosphoryl derivatives of vitamin A in biological membranes, **11:** 2535
Bombesin-like peptides in mammals, **9:** 2315

Books received

1: 4, **5:** 1846, **6:** 1954, **8:** 2146, **9:** 2252, **12:** 2550, **13:** 2654
Brain
  endorphins: possible role in reward and memory function, **11:** 2468
  renin–angiotensin system, **9:** 2255, 2260
  stimulation reward substrates, participation in memory, **11:** 2446
Bronchial mucosal
  cells, **2:** 191
  permeability, **2:** 197

Cancer
  chemoprevention with retinoids, **11:** 2528
  chemotherapy, its present state of development, **1:** 97
  problem, its complexity, **1:** 94
  therapeutic agents, clinical problems of resistance to, **1:** 103
Cardiac drug responsiveness and aging, **5:** 1927
Cardiovascular system, changes in advanced age, **2:** 163
Catecholamine
  -induced thermogenesis, **8:** 2170
  reward pathways and schizophrenia: mechanism of antipsychotic effect and site of primary disturbance, **11:** 2462

Milton O. Lee 1
1979 Annual Meeting General Session Speaker 2

NEWS ... 3

BOOKS RECEIVED ... 4

SYMPOSIUMS

Pulmonary Ventilation

Chairman: *P. D. Wagner*

Introduction. *P. D. Wagner* 5
Parenchymal mechanics at the alveolar level. *T. A. Wilson* 7
Distortion of the lung within the chest. *J. B. West* 11
Series ventilation, diffusion in airways, and stratified inhomogeneity. *J. Piiper* 17
Collateral ventilation. *H. Menkes, R. Traystman and P. Terry* 22

Fever and Hyperthermia

Chairman: *X. J. Musacchia*

Introduction: *X. J. Musacchia* 27
Phylogeny of fever. *M. J. Kluger* 30
Ontogeny of fever. *K. E. Cooper, W. L. Veale, N. Kasting and Q. J. Pittman* 35
Fever versus hyperthermia. *J. T. Stitt* 39
Etiology and pathophysiology of malignant hyperthermia. *B. A. Britt* 44
Central mechanisms of fever. *W. I. Cranston* 49
Production of endogenous pyrogen. *C. A. Dinarello* 52
Clinical fever: its history, manifestations, and pathogenesis. *E. Atkins and P. Bodel* 57

New Developments in Prostaglandin and Thromboxane Research

Chairmen: *P. Needleman and J. C. McGiff*

Introduction. *J. C. McGiff* 64
The role of prostacyclin in vascular tissue. *S. Moncada and J. R. Vane* 66
The participation of prostaglandins in the control of renin release. *J. A. Oates, A. R. Whorton, J. F. Gerkens, R. A. Branch, J. W. Hollifield and J. C. Frölich* 72
Prostaglandin metabolism in the fetal and maternal vasculature. *N. A. Terragno and A. Terragno* 75
Prostaglandins and the heart. *M. Sivakoff, E. Pure, W. Hsueh and P. Needleman* 78
Modulation of human platelet function by prostacyclin and thromboxane A_2. *R. R. Gorman* 83
Compartmentalization of prostaglandins and prostacyclin within the kidney: implications for renal function. *J. C. McGiff and P. Y-K. Wong* 89

Cancer Chemotherapy

Chairmen: *H. Busch and M. Lane*

The complexity of the cancer problem. *H. Busch* 94
The present state of development of cancer chemotherapy. *J. L. Ziegler* 97
Clinical problems of resistance to cancer chemotherapeutic agents. *M. Lane* 103
Development of antineoplastic agents by pharmaceutical companies. *S. T. Crooke* 108
Problems of toxicity of anticancer drugs. *R. S. K. Young* 113

Number 2. FEBRUARY 1979

NEWS ... 118

SYMPOSIUMS

Water Transport in Epithelia

Chairman: *J. A. Schafer*

Introductory remarks. *J. A. Schafer* 119
Cell shape as an indicator of volume reabsorption in proximal nephron. *D. J. Welling and L. W. Welling* 121
Dimensions of cells and lateral intercellular spaces in living *Necturus* gallbladder. *K. R. Spring and A. Hope* 128
Distribution of Na^+-pump sites in transporting epithelia. *D. R. DiBona and J. W. Mills* 134
Quantitative electron probe X-ray microanalysis of electrolyte elements within epithelial tissue compartments. *B. L. Gupta and T. A. Hall* 144
External solution driving forces for isotonic fluid absorption in proximal tubules. *T. E. Andreoli and J. A. Schafer* 154
Correction 160

Systems Physiology and Aging

Chairman: *N. W. Shock*

Introduction. *N. W. Shock* 161
Alterations in the cardiovascular system that occur in advanced age. *E. G. Lakatta* 163
Effects of aging on the kidney. *M. Epstein* 168

Effect of age on pulmonary structure and function of immature and adult animals and man. *J. L. Mauderly* 173
Neuroendocrine mechanisms and aging. *C. E. Finch* 178
Genetic relation of life span to metabolic rate for inbred mouse strains and their hybrids. *G. A. Sacher and P. H. Duffy* 184

Pulmonary Structure

Chairman: *J. C. Hogg*

Introduction. *J. C. Hogg* 189
Bronchial mucosal cells. *L. Reid and R. Jones* 191
Bronchial mucosal permeability. *J. C. Hogg, P. D. Paré and R. C. Boucher* 197
Neuromuscular structure and function in the airways. *J. B. Richardson and C. C. Ferguson* 202
Structural aspects of gas exchange. *J. B. Forrest* 209
Postnatal formation of alveoli: interstitial events and physiologic consequences. *J. S. Brody and C. Vaccaro* 215

Number 3. MARCH 1, 1979

Abstracts of papers presented at the Federation Annual Meeting 225

LETTER

Biomedical scientists in public service. *C. Schatte* 1837

NEWS ... 1838

SPECIAL ARTICLE

Structure and function of immunoglobulin genes and precursors. *I. Schechter, O. Wolf, R. Zemell and V. Burstein* 1839

BOOKS RECEIVED ... 1846

SYMPOSIUMS

Cell Biology and Aging

Chairman: *L. Hayflick*

Cell biology of aging. *L. Hayflick* 1847
Modulation of cell proliferation and senescence of WI-38 cells by hydrocortisone. *V. J. Cristofalo and B. A. Rosner* 1851
Cell replication and aging: in vitro and in vivo studies. *E. L. Schneider* 1857
In vitro studies of age-associated diseases. *S. Goldstein and C. B. Harley* 1862
Complementation in heterokaryons derived from a thymidine kinase deficient cell line and senescent human diploid cells. *T. H. Norwood, P. S. Rabinovitch and C. J. Zeigler* 1868

Role of Epidemiology in Toxicology

Cochairmen: *J. A. Thomas and R. L. Dixon*

Introduction. *J. A. Thomas* 1873
Some fundamental aspects of epidemiology: a guide for laboratory scientists. *W. J. Rogan and S. M. Brown* 1875
Significance of retrospective studies. *R. J. C. Pearson* 1880
Industrial epidemiology. *D. J. Kilian and G. Barna-Lloyd* 1883
Significance of epidemiology as viewed by a government scientist. *J. Griffith* 1888
Epidemiologic considerations in the design of toxicologic studies: an approach to risk assessment in humans. *J. S. Woods* 1891
Concluding remarks. *R. L. Dixon* 1897

Pharmacology and Aging

Chairman: *E. J. Cafruny*

Introduction. *E. J. Cafruny* 1899
Biotransformation of drugs during aging. *J. R. Gillette* 1900
Hormone receptor changes during adulthood and senescence: significance for aging research. *G. S. Roth* 1910
Age-related alterations in the development of adrenergic denervation supersensitivity. *B. Weiss, L. Greenberg and E. Cantor* 1915
Aging and monoamine receptors in brain. *M. H. Makman, H. S. Ahn, L. J. Thal, N. S. Sharpless, B. Dvorkin, S. G. Horowitz and M. Rosenfeld* 1922
Changes in responsiveness of the heart to drugs during aging. *J. Roberts and P. B. Goldberg* 1927

CONFERENCE

Extending Use of Crop Residues by Ruminants

Chairman: *R. S. Emery*

Introduction. *R. S. Emery* 1933
Processing and use of crop residues including alfalfa press cake. *G. O. Kohler, H. G. Walker, Jr., and D. D. Kuzmicky* 1934
Performance of animals fed crop residues. *T. Klopfenstein, L. Berger and J. Paterson* 1939

Number 6. MAY 1979

LETTER

Some critically evaluated biological information. *E. L. Hess* 1945

SYMPOSIUM REPORT

Immunochemistry symposium honoring Michael Heidelberger. *A. G. Osler* 1946

SYMPOSIUMS

Overview of the Biology of Aging

Chairman: *R. N. Butler*

Introductory statement. *R. C. Adelman* 1955
Analysis and exploration of age-related changes in mammalian

structure and function. *E. J. Masoro, H. Bertrand, G. Liepa and B. P. Yu* 1956
Genetic and evolutionary aspects of aging. *G. M. Martin* 1962
Loss of adaptive mechanisms during aging. *R. C. Adelman* 1968

Molecular Biology and Aging

Chairman: *J. R. Florini*

Introductory remarks. *J. R. Florini* 1972
The structural organization of mouse chromatin as a function of age. *J. Gaubatz, M. Ellis and R. Chalkley* 1973
Protein synthesis and aging: studies with cell-free mammalian systems. *K. Moldave, J. Harris, W. Sabo and I. Sadnik* 1979
Age-related changes in function of transfer ribonucleic acid of rat livers. *L. L. Mays, A. E. Lawrence, R. W. Ho and S. Ackley* 1984
Inverse correlation between species life span and capacity of cultured fibroblasts to metabolize polycyclic hydrocarbon carcinogens. *A. G. Schwartz and C. J. Moore* 1989

Nutrition and Aging

Chairman: *R. B. Alfin-Slater*

Introduction. *R. B. Alfin-Slater* 1993
Diet as a modulator of aging and longevity. *V. R. Young* 1994
Diet, lipid metabolism, and aging. *D. Kritchevsky* 2001
Influence of controlled dietary restriction on immunologic function and aging. *R. H. Weindruch, J. A. Kristie, K. E. Cheney and R. L. Walford* 2007
Diet, central nervous system, and aging. *L. D. Lytle and A. Altar* 2017

Theoretical Aspects of Epithelial Transport

Chairman: *D. J. Marsh*

Introduction. *D. J. Marsh* 2023
Application of equivalent electrical circuit models to study of sodium transport across epithelial tissues. *S. G. Schultz* 2024
Equivalent electrical circuit analysis and rheogenic pumps in epithelia. *E. L. Boulpaep and H. Sackin* 2030
A model of pressure-modulated fluid reabsorption by the renal proximal tubule: implications for glomerulotubular balance. *D. J. Marsh and R. E. Huss* 2037
Epithelial transport of weak electrolytes. *M. J. Jackson and J. A. Dudek* 2043

Number 7. JUNE 1979

SPECIAL ARTICLE

Functions of an institutional review board and the protection of human subjects. *J. H. U. Brown* 2049

SYMPOSIUMS

Immune Regulation

Chairman: *R. K. Gershon*

Introduction. *R. K. Gershon* 2051
Specific suppressor responses to antigen under I region control. *B. Benacerraf and R. N. Germain* 2053
Immunological circuits: cellular composition. *H. Cantor and R. K. Gershon* 2058
Adaptive differentiation of murine lymphocytes: implications for mechanisms of cell–cell recognition and the regulation of immune responses. *D. H. Katz* 2065
Helper T cell interactions. *C. A. Janeway, Jr.* 2071
Ontogeny of regulatory cells. *F. M. Rollwagen and O. Stutman* 2075

Modulation of Synaptic Excitability

Chairman: *F. F. Weight*

Introduction. *F. F. Weight* 2078
Amino acid synergism at synapses. *R. N. McBurney and A. C. Crawford* 2080
Long-lasting synaptic potentials and the modulation of synaptic transmission. *F. F. Weight, J. A. Schulman, P. A. Smith and N. A. Busis* 2084
Functional role of serotonergic neuromodulation in *Aplysia*. *I. Kupfermann, J. L. Cohen, D. E. Mandelbaum, M. Schonberg, A. J. Susswein and K. R. Weiss* 2095
Local hormonal modulation of neural activity in *Aplysia*. *E. Mayeri* 2103
Modulatory actions of norepinephrine in the central nervous system. *D. J. Woodward, H. C. Moises, B. D. Waterhouse, B. J. Hoffer and R. Freedman* 2109
Biochemical and physiological studies of long-term synaptic plasticity. *G. Lynch, M. Browning and W. F. Bennett* 2117

CONFERENCE

Interrelationships of Nutrition and Infection

Chairman: *G. F. Combs, Jr.*

Introductory remarks. *G. F. Combs, Jr.* 2123
Biochemical changes in avian tissues during infection. *R. L. Squibb* 2124
Dietary influences on resistance to *Salmonella* infection in chicks. *C. H. Hill* 2129
Protective effects of supplemental vitamin E against infection. *C. F. Nockels* 2134
Influence of vitamin E and selenium on immune response mechanisms. *B. E. Sheffy and R. D. Schultz* 2139

Number 8. JULY 1979

SYMPOSIUMS

Metabolic Aspects of Thermogenesis: Neuronal and Hormonal Control

Chairman: *B. A. Horwitz*

Introduction. *B. A. Horwitz* 2147
The role of sodium transport in thyroid thermogenesis. *T. J. Smith and I. S. Edelman* 2150
Nuclear receptors and thyroid hormone action: a progress report. *J. H. Oppenheimer, W. H. Dillmann, H. L. Schwartz and H. C. Towle* 2154

Catecholamine–thyroid hormone interaction in cold-acclimated rats. *M. J. Fregly, F. P. Field, M. J. Katovich and C. C. Barney* ... 2162
Cellular events underlying catecholamine-induced thermogenesis: cation transport in brown adipocytes. *B. A. Horwitz* ... 2170
The function of glucocorticoids in thermogenesis. *D. R. Deavers and X. J. Musacchia* ... 2177

Cyclic Nucleotides and Synaptic Function

Chairman: *F. G. Standaert*

Introduction. *F. G. Standaert* ... 2182
Cyclic nucleotides and neuromuscular transmission. *F. G. Standaert and K. L. Dretchen* ... 2183
Multiple factors regulating the release of norepinephrine consequent to nerve stimulation. *N. Weiner* ... 2193
Cyclic nucleotides in central synaptic function. *F. E. Bloom* ... 2203
Cyclic nucleotides, phosphorylated proteins and the nervous system. *P. Greengard* ... 2208

Transport Processes as Sites of Action of Toxic Chemicals

Chairman: *A. W. Hayes*

Introduction. *A. W. Hayes* ... 2218
Toxic substances and cell membrane function. *J. B. Prûchard* ... 2220
Effects of toxic chemicals on renal transport processes. *W. O. Berndt* ... 2226
Chemical effects on lung transport. *J. T. Gatzy* ... 2234
Modification of hepatobiliary function by toxic chemicals. *H. M. Mehendale* ... 2240
Effects of toxic agents on movements of materials across the placenta. *B. J. Kelman* ... 2246

Number 9. AUGUST 1979

Physiological Effects of Angiotensin

Chairman: *R. L. Malvin*

Introduction. *R. L. Malvin* ... 2253
The brain renin–angiotensin system: a critical analysis. *I. A. Reid* ... 2255
Evidence for an endogenous brain renin–angiotensin system. *M. I. Phillips, J. Weyhenmeyer, D. Felix, D. Ganten and W. E. Hoffman* ... 2260
Interrelations between vasopressin and the renin–angiotensin system. *L. Share* ... 2267
An intracerebral, physiological role for angiotensin: effects of central blockade. *V. L. Brooks and R. L. Malvin* ... 2272
Physiological actions of angiotensin II on the kidney. *R. H. Freeman and J. O. Davis* ... 2276
Intrarenal effects of the renin–angiotensin system. *D. W. Ploth and L. G. Navar* ... 2280

CONFERENCE

Peptides of the Brain and Gut

Chairman: *E. Zimmerman*

Introductory remarks. *E. Zimmerman* ... 2286
Embryology of the diffuse neuroendocrine system and its relationship to the common peptides. *A. G. E. Pearse and T. Takor Takor* ... 2288
Evolutionary relationships of the gut hormones. *G. J. Dockray* ... 2295
Evolutionary aspects of some neuropeptides. *J. M. Stewart and K. Channabasavaiah* ... 2302
Some contributions to the chemistry of the gastrointestinal hormones. *V. Mutt* ... 2309
Bombesin-like peptides in mammals. *J. H. Walsh, H. C. Wong and G. J. Dockray* ... 2315
Gastrointestinal peptides in the brain. *E. Straus and R. S. Yalow* ... 2320
Gastrin and cholecystokinin in central and peripheral neurons. *J. F. Rehfeld, N. Goltermann, L.-I. Larsson, P. M. Emson and C. M. Lee* ... 2325
Localization in and release of somatostatin from brain and gut. *B. L. Pimstone, M. Sheppard, B. Shapiro, S. Kronheim, A. Hudson, S. Hendricks and K. Waligora* ... 2330
Localization and possible function of peptidergic neurons and their interactions with central catecholamine neurons, and the central actions of gut hormones. *K. Fuxe, K. Andersson, T. Hökfelt, V. Mutt, L. Ferland, L. F. Agnati, D. Ganten, S. Said, P. Eneroth and J-A. Gustafsson* ... 2333
Chemical messengers: a view from the gut. *M. I. Grossman* ... 2341
Synaptic modulation by substance P. *W. A. Krivoy, J. R. Couch, J. L. Henry and J. M. Stewart* ... 2344
Neurohypophyseal principles and memory. *D. de Wied and D. H. G. Versteeg* ... 2348

SYMPOSIUMS

Neural Antigens: Potential Probes for Neurophysiology

Chairman: *W. Shain*

Introduction. *W. Shain* ... 2361
Cell type-specific neural cell surface antigens. *M. Schachner* ... 2363
Recognition of antigenic differences among neurons using antiserums to clonal neural retina hybrid cells. *G. D. Trisler, M. A. Donlon, W. G. Shain and H. G. Coon* ... 2368
Immunocytochemical localization of neuronal antigens: tyrosine hydroxylase, substance P, [Met^5]-enkephalin. *V. M. Pickel* ... 2374
The role of acetylcholine receptor antibodies in myasthenia gravis. *S. H. Appel, S. B. Elias and P. Chauvin* ... 2381
An immunological approach to cell separation of the central nervous system. *G. LeM. Campbell* ... 2386
Biological activities of antibodies injected into the brain. *M. M. Rapport, S. E. Karpiak and S. P. Mahadik* ... 2391

Genetic Animal Models of Epilepsy

Cochairmen: *H. L. Edwards, Jr., and P. Consroe*

Introduction. *P. Consroe and H. L. Edmonds, Jr.* ... 2397
Audiogenic seizures in mice. *T. N. Seyfried* ... 2399

Analysis of inherited epilepsy using single locus mutations in mice. *J. L. Noebels* 2405
Audiogenic seizure susceptible rats. *P. Consroe, A. Picchioni and L. Chin* 2411
Pharmacological and biochemical studies in epileptic fowl. *D. D. Johnson, H. L. Davis and R. D. Crawford* 2417
Spontaneous convulsions in beagle dogs. *H. L. Edmonds, Jr., G. A. Hegreberg, N. M. vanGelder, D. M. Sylvester, R. M. Clemmons and C. C. Chatburn* 2424
Photomyoclonic seizures in the baboon, *Papio papio*. *E. K. Killam* 2429

Number 11. OCTOBER 1979

LETTERS

Statistical "correlations" relating *trans*-fats to cancer: a commentary. *T. H. Applewhite* 2435
Dietary fat and cancer trends—a further critique. *J. C. Bailar III* 2435
Further comments. *W. H. Meyer* 2436
Response. *M. G. Enig, R. J. Munn and M. Keeney* 2437

SYMPOSIUMS

Functional, Anatomical and Pharmacological Aspects of Central Motivational Systems: a Tribute to James Olds

Chairman: *C. Kornetsky*

Introduction. *C. Kornetsky* 2445
Participation of brain stimulation reward substrates in memory: anatomical and biochemical evidence. *A. Routtenberg* 2446
Hypothalamic self-stimulation and stimulation escape in relation to feeding and mating. *B. G. Hoebel* 2454
Catecholamine reward pathways and schizophrenia: the mechanism of the antipsychotic effect and the site of the primary disturbance. *T. J. Crow* 2462
Brain endorphins: possible role in reward and memory formation. *L. Stein and J. D. Belluzzi* 2468
Euphorigenic drugs: effects on the reward pathways of the brain. *C. Kornetsky and R. U. Esposito* 2473

Tissue Oxygenation Problems in Different Pathological Situations

Chairman: *J. Strauss*

Introduction. *J. Strauss* 2477
Clinical aspects of continuous neonatal oxygen monitoring. *J. Strauss, E. Bancalari, R. Feller, J. Gannon, A. V. Beran and R. Baker* 2478
Changes in red cell oxygen release capacity in diabetes mellitus. *J. Ditzel* 2484
Cerebral energy state, mitochondrial function, and redox state measurements in transient ischemia. *S. Rehncrona, L. Mela and B. Chance* 2489
Regional cerebral blood flow thresholds during cerebral ischemia. *R. B. Morawetz, R. H. Crowell, U. DeGirolami, F. W. Marcoux, T. H. Jones and J. H. Halsey* 2493
The significance of clinical assessment of brain tissue oxygenation in different pathological conditions: an overview. *I. A. Silver* 2495

Vitamin A and Retinoids: Recent Advances

Chairman: *D. S. Goodman*

Introduction, background, and general overview. *D. S. Goodman* 2501
Retinol-binding protein and the regulation of vitamin A transport. *J. E. Smith and D. S. Goodman* 2504
Cellular retinol- and retinoic acid-binding proteins in vitamin A action. *F. Chytil and D. E. Ong* 2510
Intracellular binding proteins for retinol and retinoic acid: comparison with each other and with serum retinol-binding protein. *A. C. Ross and D. S. Goodman* 2515
Retinoic acid metabolism. *H. F. DeLuca* 2519
Recent advances in the in vivo and in vitro metabolism of retinoic acid. *A. B. Roberts and C. A. Frolik* 2524
Chemoprevention of cancer with retinoids. *M. B. Sporn and D. L. Newton* 2528
Biosynthesis of phosphoryl and glycosyl phosphoryl derivatives of vitamin A in biological membranes. *L. M. De Luca, P. V. Bhat, W. Sasak and S. Adamo* 2535
Recent evidence for the participation of vitamin A in glycoprotein synthesis. *G. Wolf, T. C. Kiorpes, S. Masushige, J. B. Schreiber, M. J. Smith and R. S. Anderson* 2540

Number 12. NOVEMBER 1979

SYMPOSIUMS

Translation of Scientific and Nutrition Findings to Social Policy

Chairman: *J.-P. Habicht*

Introduction. *J.-P. Habicht* 2551
On knowledge, policy, practice, and fate. *H. Orlans* 2553
The use of government to protect and promote the health of the public through nutrition. *W. H. Stewart* 2557
Evidence and proof in making policy decisions. *D. M. Hegsted* 2560
Science, senators, and uncertainty. *R. N. Brandon* 2564
Science, politics, and public policy: a legislator's perspective. *M. F. McHugh* 2567

Identification and Physiology of Circadian Pacemakers

Chairman: *A. Eskin*

Introduction. *A. Eskin* 2570
Circadian system of the *Aplysia* eye: properties of the pacemaker and mechanisms of its entrainment. *A. Eskin* 2573
Circadian organization in *Aplysia californica*. *T. L. Page and D. J. Hudson* 2580
Physiology of avian circadian pacemakers. *J. S. Takahashi and M. Menaker* 2583
Neural mechanisms for entrainment and generation of mammalian circadian rhythms. *B. Rusak* 2589
Photoentrainment, pharmacology, and phase shifts of the circadian rhythm in the rat pineal. *M. Zatz* 2596
Genetic dissection of the *Drosophila* circadian system. *R. J. Konopka* 2602

Immunopathology of Receptors

Chairman: *D. B. Drachman*

Introduction. *D. B. Drachman* 2606
Autoantibodies to the insulin receptor: clinical and molecular aspects. *C. R. Kahn* 2607
Prolactin and growth hormone receptors: regulation and characterization. *H. G. Friesen* 2610
Immunopathology of Graves' disease. *R. Volpé* 2611
Immunopathology of myasthenia gravis. *D. B. Drachman* 2613

Regulation of Lipid Metabolism in Avian Species

Chairman: *J. D. Garlich*

Introduction. *J. D. Garlich* 2616
Regulation of fatty acid synthesis. *W. E. Donaldson* 2617
Role of lipoprotein lipase in plasma triglyceride removal. *A. Bensadoun and I. P. Kompiang* 2622
Nutritional factors affecting quantity and quality of carcass fat in chickens. *I. Bartov* 2627
Control of liver lipid accumulation in laying birds. *L. S. Jensen* 2631

MINISYMPOSIUM

Lung Metabolism: Cells

Chairmen: *A. B. Cohen and R. King*

Lung cell biology. *A. B. Cohen* 2635
Utilization of alveolar epithelial Type II cells for the study of pulmonary surfactant. *R. J. King* 2637
Potential adverse effects of lung macrophages and neutrophils. *A. B. Cohen* 2644

Number 13. DECEMBER 1979

Drugs and nutrition. *A. D. Kenny* 2655

SYMPOSIUMS

Chronic and Persistent Viral Infections

Chairman: *J. E. Craighead*

Introduction. *J. E. Craighead* 2659
Herpes simplex virus infection in sensory ganglia: immune control, latency, and reactivation. *H. Openshaw, A. Puga and A. L. Notkins* 2660
Acute and chronic viral hepatitis. *E. Rubin* 2665
Retrovirus expression in normal and pathogenic processes of man. *S. Panem and J. T. Reynolds* 2674

Living History: Nutritional Discoveries of the 1930's

Chairman: *T. H. Jukes*

Introductory remarks. *T. H. Jukes* 2679
The isolation of vitamin C from lemon juice. *C. G. King* 2681
Identification and synthesis of threonine. *H. E. Carter* 2684
Vitamin K: discovery, identification, synthesis, functions. *H. J. Almquist* 2687
Lactic acid bacteria and identification of B vitamins: some historical notes, 1937–1940. *E. E. Snell* 2690
Identification of riboflavin deficiency in human subjects. *W. H. Sebrell* 2694
Early work with folic acid. *E. L. R. Stokstad* 2696
The isolation of pyridoxine. *S. Lepkovsky* 2699

Economy of Rumen Digestion

Chairman: *F. N. Owens*

Introductory remarks. *F. N. Owens* 2701
Quantitating ruminal turnover. *W. C. Ellis, J. H. Matis and C. Lascano* 2702
Efficiency of growth by ruminal bacteria. *R. B. Hespell* 2707
Influence of ruminal turnover on site and extent of digestion. *L. S. Bull, W. V. Rumpler, T. F. Sweeney and R. A. Zinn* 2713

Electrophysiology of Epithelial Transport

Chairman: *L. Reuss*

Introduction. *L. Reuss* 2720
Transmucosal Na^+ electrochemical potential difference and solute accumulation in epithelial cells of the small intestine. *W. McD. Armstrong, J. F. Garcia-Diaz, J. O'Doherty and M. G. O'Regan* 2722
Intracellular ion activities in *Necturus* proximal tubule. *K. R. Spring and G. Kimura* 2729
Mechanisms of sodium and chloride transport by gallbladder epithelium. *L. Reuss* 2733
Intracellular ion activities and their relationship to membrane properties of tight epithelia. *S. A. Lewis and N. K. Wills* 2739
Electrochemical potentials in frog skin: inferences for electrical and mechanistic models. *S. I. Helman* 2743

Enzyme Inhibitors of the Kallikrein and Renin Systems

Chairman: *E. G. Erdös*

Introduction. *E. G. Erdös* 2751
Kallikrein inhibitors. *H. Fritz, E. Fink and E. Truscheit* 2753

A rationale for the therapeutic action of aprotinin. *G. Haberland and R. McConn* 2760
Inhibitors of renin and their utility in physiologic studies. *E. Haber and J. Burton* 2768
Inhibitors of kininases. *E. G. Erdös* 2774
Development of specific inhibitors of angiotensin I converting enzyme (kininase II). *D. W. Cushman, H. S. Cheung, E. F. Sabo, B. Rubin and M. A. Ondetti* 2778
Studies in vivo with angiotensin I converting enzyme (kininase II) inhibitors. *R. E. McCaa* 2783
Pepstatin, an inhibitor of acid kininogenases and ascites retardant in neoplastic disease. *L. M. Greenbaum* 2788
